# Body and Dimensions

## Range & body types

### Dimensions

Although compact on the outside, the Kubistar has a generous 2.75m<sup>3</sup> to 3m<sup>3</sup> of load volume with the passenger seat folded. Choose from versions with or without sliding doors, or a bulkhead. Depending on your requirements you can specify a tubular or half mesh bulkhead\* (\*as part of the optional Modularity pack)

· Prices stated are guide prices only and do not include any labour or painting costs where applicable. · In the case of alloys wheels, new tyres may be required. Any prices quoted do not include the cost of tyres. · Certain accessories may not be compatible with other accessories or standard vehicle specifications and equipment. · Some accessories may require additional parts or fitting kits that are not included in the stated price. Accordingly, you should contact your local authorised Nissan dealer for the most current information.

# Performance

High technology, low costs

## DRIVING PERFORMANCE

### A choice of Common Rail dCi engines

Kubistar features the current 1.5dCi 65hp and a new euro IV dCi engine delivering 60, 68 or 84hp. Each of these 1.5 litre engines is matched with a 5-speed manual transmission. Each version features dCi technology – providing impressive performance and low noise

### Powerful dCi Common Rail engines

Choose between a euro III engines with a standard high payload or a euro IV engine offering 3 different power outputs. All these proven, durable power plants are matched to a 5-speed manual transmission and, of course, all these engines are highly economical.

### Responsive driving and excellent braking system

The compact new Kubistar manoeuvres through city streets like a passenger car, thanks to power steering and a tight 10.4 metre turning circle. And it brakes as well as it drives. Whilst ABS, standard on all versions, maximises the braking performance of the vehicle and prevents the wheels from locking to keep you in control, Emergency Brake Assist (EBA) amplifies the pressure you put on the pedal to apply the brakes harder.

## RUNNING COST

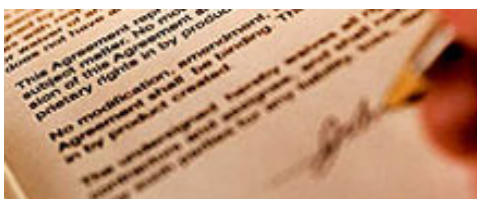

### 3-year manufacturer's warranty + 12-year anti-corrosion warranty

Kubistar is backed by a 3-year or 60,000 miles (whichever comes first) parts and labour warranty. In addition, Kubistar's body is protected by a 12-year anti-corrosion warranty with paintwork protected by a 3 year warranty.

### Economical engines

Kubistar's engines are designed to take on the daily rigours of stop-and-start driving. With the fuel efficiency to minimise running costs and maximise your profits.

### Long service interval

Kubistar has been engineered to minimise your operating costs and only needs to be serviced every 18,000 miles or 2 years (whichever comes first) on euro III engines or 12,000 or 1 year (whichever comes first) on euro IV engines. Giving you more time on the road and less downtime.

# Safety and Security

Prepared for the unexpected

## PASSIVE & ACTIVE SAFETY

### Feel safe

A driver's airbag and height adjustable seatbelts with pretensioners and load limiters are standard across the range. And for added safety, you can opt for the passenger airbag.

### ABS + EBA

ABS comes as standard across the range and is assisted by EBA (Emergency Brake Assist). Studies have shown that drivers often don't apply the brakes hard enough in emergencies. Emergency Brake Assist (EBA) amplifies the pressure you put on the pedal during emergency braking ensuring you slow down or stop as safely as possible.

## SECURITY

### Remote central locking with automatic door lock

Remote central locking is standard across the range as well as auto door-lock which automatically locks the doors when you reach 5mp/h. Both these features give you and your cargo increased security.

### Engine immobiliser

We've equipped Kubistar with an immobiliser to deter thieves. The engine won't start without the coded ignition key. So your Kubistar will always be just where you left it.

### 3-button remote control

Open and close the doors of the cargo area separately with the 3-button remote control. This feature, standard on the SE grade, gives you additional security when you load and unload your new Kubistar.
